Ciclo applicativo

1. Prima di verniciare accertarsi che la superficie sia liscia. Se occorre rasare, utilizzare il Samostucco e isolare con Titancril; applicare una mano di Fondo universale per decorativi.
2. **SOUL** si applica a pennello. Il prodotto è pronto all'uso, se occorre diluire con acqua all'1-3%.
3. Applicare **SOUL** in una mano con pennellate incrociate e distribuendo il prodotto in maniera non uniforme sulla superficie, così da creare alcune zone lisce ed altre zone con accumulo.
4. Per ottenere un effetto di colore più pieno ed uniforme, applicare il prodotto su una pittura lavabile in tinta con la finitura.

In alternativa, a superficie completamente asciutta, applicare una seconda mano di SOUL, precedentemente diluito con il 50% di acqua, agendo con pennellate molto veloci e leggere sulla superficie.

EFFETTO TESSUTO: applicare il prodotto a pennello, dopo qualche minuto ripassare con pennello a setole rigide in senso verticale. Dopo alcune ore, a prima mano essiccata, riapplicare il prodotto e poi pennellare sempre con pennello a setole rigide in senso orizzontale, creando così un effetto simile alla trama di un tessuto.

Application

1. Before the application make sure that the surface is smooth enough and without imperfections. If it's necessary to make it smoother, use Samostucco and seal with Titancril; then apply one coat of Universal primer for decorations.
2. **SOUL** must be applied by brush. This product is ready to use, but if necessary dilute it with 1-3% of water.
3. Apply **SOUL** in one coat using crossed brush strokes, spreading the product non uniformly on the surface, in order to create smooth areas and beside rough areas with accumulation of product.
4. In order to obtain a more uniform and full colour, apply the product on a washable paint in the same shade of the selected colour of SOUL. Alternately apply a second coat of SOUL, diluted with 50% of water, acting with very fast and soft brush strokes on the surface.

FABRIC EFFECT - Apply the product using a brush. Wait a few minutes then go over it again using a stiff bristled brush, with vertical brushstrokes. After a few hours, when the first coat has dried, reapply the product, again going over it with a stiff bristled brush, but this time with horizontal brushstrokes, creating an effect like the weft of a fabric.

Tutte le sfumature dell'anima

Proprio come la "musica dell'anima", che è nata dalla fusione delle sonorità del blues e del gospel, **SOUL** unisce i vivaci riflessi perlescenti della superficie liscia con gli eleganti effetti cromatici lucido-opachi dei pigmenti contenuti nella sua formulazione.

Gli speciali pigmenti si raggruppano formando un effetto di luci ed ombre unico nel suo genere e sempre diverso a seconda dell'incidenza della luce sulla superficie. La caratteristica lavorabilità del prodotto, insieme alla creatività dell'applicatore, permettono di ottenere molteplici effetti decorativi adatti ad ogni circostanza e stato d'animo.

All the tones of the soul

Just like the soul music, born mixing together blues and gospel sonorities, SOUL combines the bright and pearlescent reflections of a smooth surface with the elegant gloss-matt chromatic effects of pigments contained in its formulation.

These special and high quality pigments group together in some areas, creating this way an unique play of light and shadows, which is different depending on the incidence of light on the surface. The special workability of the product, together with the creativity of the decorator, allow to obtain a multitude of effects suitable for every mood and circumstance.
